Dear Students and Parents

What an exciting quarter this has been for our school!

We celebrated our 25th anniversary with a special promotion event, launched a few new classes and had a public demo in the park all while we continued to train diligently through the summer break.

As fall begins we are eagerly anticipating the arrival of the Grandmaster and HQ Masters for the special Super Seminar just before our next round of testing.

I look forward to working with you all as we continue our martial arts journey.

Adult Classes 7-8pm

Have you always wanted to try a class? Why not try out our adult classes from Monday to Thursday 7-8pm. It is never too late to learn Kuk Sool Won.

Holidays (school closed):

Veteran's Day:
November 11

Thanksgiving Day Weekend:
November 26, 27, 28

It was a special occasion to share with all my students and heartwarming to still have instructors at the school who have trained with me for many years.

It also presented an opportunity for me to share a part of my personal martial arts journey with a preview of my documentary.

I value your feedback and appreciate the positive responses I received. I also found the comments made by students really touching and enjoyed seeing them pasted on the mirrors with the little paper martial arts faces.

Thank you for celebrating with us!

Demo in the Park

Thanks to the sterling efforts of our demo team we held a successful demonstration at the Community Night of the Dublin Farmer's Market.

We are planning more demonstrations in the future so please monitor your emails and our social media accounts.

Sparring Classes: Friday and Saturday

Sparring class is the closest environment to being in a real altercation, without actually fighting. It has the specific purpose of allowing you to sharpen your skills and practice things like controlling distance, balance, timing, speed, agility and focus in addition to being a fantastic cardiovascular and muscle endurance training session. Be sure to make your class!

Demo Team Training

Second Saturday of every month

The school has been a hive of activity this quarter and I am pleased that all our students enjoyed their summer break.

It does not seem that long ago that I was wishing you well for the school year and now we are already heading for Thanksgiving.

Our school continues to thrive thanks to the consistent training of our students.

Testing will continue to challenge the skills you have acquired in training and push you to deliver your very best effort.

The more dedicated you are to training, the faster your skills will improve and the greater the results will be for your fitness and your general well-being.

I appreciate your continued support and enthusiasm.

Sincerely

Master Saidi
